PROFESSIONAL SUMMARY

Front-End Developer with 3 years of experience specializing in **HTML, CSS, JavaScript, Bootstrap, jQuery,** and **SCSS**. Skilled in creating responsive, user-friendly interfaces. **Web Developer** with over 2+ years of experience in **Laravel** development, focusing on routes, models, controllers, MVC architecture, and database migrations. Proficient in developing custom WordPress themes, building plugins, integrating WooCommerce, and designing pages with Elementor. Experienced in **back-end development** using **PHP**, **Core PHP**, and **Laravel**, building robust and scalable web applications. Passionate about delivering seamless user experiences and high-performance solutions across both front-end and back-end technologies. Specializing in Core PHP development, I focus on delivering robust, user- centric solutions that ensure seamless and efficient user experiences. With a strong foundation in creating and maintaining both admin and user panels. Additionally, I leverage modern CSS layout techniques like flexbox and grid for building complex, responsive designs. My work also includes implementing Bootstrap components (such as navbars, modals, and more) to enhance user interaction and ensure consistency across various screen sizes.

WORK EXPERIENCE

Codiglot (Senior Web Developer)   **July 2022 - Present**

- Specialize in crafting dynamic web applications using HTML, CSS, JavaScript, and PHP. My focus is on building robust Core PHP /php projects that deliver seamless user experiences.
- Developed a comprehensive web application featuring an admin panel and a user panel, streamlining management and user interactions.
- Designed and executed database migrations to support scalable and maintainable applications. Structured relational databases with optimized queries for enhanced performance.
- Developed responsive and user-friendly front-end interfaces and modern front-end technologies.
- Experience in consuming and integrating RESTful APIs to retrieve and manipulate data from external sources.
- Adept at crafting custom themes and plugins in WordPress, setting up WooCommerce, and using Elementor for dynamic page creation.
- Built secure authentication and authorization systems in **Laravel**, including role-based access control.

Exertion (Web Developer).   **April 2021 - June 2022**

- Experienced and detail-oriented professional hands-on expertise in web development, specializing in Laravel, PHP, MySQL, HTML, CSS, Bootstrap, and JavaScript.
- Focused on building modular, scalable components and ensuring seamless user interactions, directly supporting the management of bankruptcy cases nationwide.
- Leveraged Experience in consuming and integrating RESTful APIs to retrieve and manipulate data from external sources.
- Developed and maintained responsive, mobile-first websites using HTML5, BOOTSTRAP, and CSS3 to deliver high-quality web experiences for various clients.
- Integrated third-party libraries such as Material-UI, Axios, and Google Maps to enhance the functionality and user interface of web applications.

PNC Solution (INTERNSHIP)   **Aug 2021 - Sep 2021**

- Developed and maintained responsive web pages using HTML, CSS, and Bootstrap.
- Translated Figma designs into clean, responsive layouts using HTML, CSS, and Bootstrap.
- Improved page load times through code optimization and efficient asset management.
- Optimized website performance by reducing page load times and improving cross-browser compatibility.
- Translated Figma designs into pixel-perfect, user-friendly web pages.

EDUCATION

Bachelor in Information Technology   **Feb 2018 - Feb 2022**

Bahria University
